NOTES

Swivel mechanism allows the chair to turn a full 360-degrees

Upholstered in premium leather, available in three color options, for an elevated look and superior durability

Welt trim and heavy thread top stitching add refinement and durability

Padded arms enhance comfort and reduce pressure on forearms

Seat with divided chaise and extended footrest offers superior comfort, no matter your size

Built to last with our DualFlex Spring System—sturdy steel ribbons attached to flexible coils that offer a wide range of motion and durability

Lay-flat mechanism allows you to fully recline for a quick snooze or longer sleeping comfort

Power control independently controls the headrest, lumbar and recline for a personalized sit

Home button returns the headrest, lumbar and footrest to their original positions with one touch

High-density cushions consist of a high-resiliency, high-density polyurethane foam core

USB port built into power control for convenient charging

In stock and ready to ship

Note: 050-01 color may vary between taupe and grey depending on lighting. Reference physical swatch before ordering.

Power allows you to smoothly recline to any position, adjust the headrests, and adjust the lumbar supports.

A single USB port is included on each power button control on styles with arms.

A home feature returns the headrest, footrest, and lumbar support to their original positions.

Home Button

The home button returns the headrest, footrest, and lumbar support to their original positions. To activate the home button, press and hold the button used to lower the footrest.
