NOTES

Power allows you to smoothly recline to any position, adjust the headrests, and adjust the lumbar supports.

A single USB port is included on each power button control on styles with arms.

A home feature returns the headrest, footrest, and lumbar support to their original positions.

Home Button

The home button returns the headrest, footrest, and lumbar support to their original positions. To activate the home button, press and hold the button used to lower the footrest.
