NOTES

- Power allows you to smoothly recline to any position.
- A four-button wired power hand control on the right-hand side of the recliner allows for controlled transitioning between the recline and lift positions. A single USB port is included on the top of the hand control.
- A home feature returns the recliner to its original position.
- Power mechanisms allow you to smoothly recline to any position, adjust the headrest, and adjust the lumbar support.
- Ten-button wired hand control on the right-hand side of the recliner allows you to control the reclining, headrest, footrest, and lumbar mechanisms independently. A single USB port is included on the top of the hand control.
- A home feature returns the recliner, headrest, backrest, footrest, and lumbar support to their original positions.
