Also available with nailhead trim (2881-50H)
Also available with nailhead trim (2881-50)
Power allows you to smoothly recline to any position.
A single USB port is included on each power button control on styles with arms.
Lower the footrest by applying pressure to it in a downward motion. Lowering the footrest with the handle can damage the recliner.
The power control allows you to independently adjust the recline and headrest.
A separate home button returns the headrest and footrest to their original positions with one touch.
A USB port is included on the power control for powering electronics.
Zero draw technology only uses power when the USB port is in use.
