NOTES

Power control on the arm independently adjusts the headrest and recline for a personalized sit
Home button returns the headrest and footrest to their original positions with one touch
USB charging port built into power control keeps devices powered up and ready to use
Pull-tufted, triple-divide back cushions support your back and have distinctive look
Rounded pad-over track arms enhance comfort and provide additional forearm support
Contoured seat with chaise pad for a comfortable, tailored look
Built to last with our DualFlex Spring System™—sturdy steel ribbons attached to flexible coils that offer a wide range of motion and durability
High-density cushions consist of a high-resiliency, high-density polyurethane foam core with a soft fiber wrap that ensures comfort as you sit and recline
Available in leather/match options that will hold up in the most demanding environments
Available in more than 50 leather options to suit any décor
Removable back allows for easy lifting and maneuvering through doorways
Swivel mechanism allows seamless side-to-side motion
Gliding mechanism provides soothing movement that helps you relax
Handle-activated recline system on the side of the arm allows you to manually adjust between sitting and reclining
Available in durable leather upholstery that holds up in the most demanding environments
Footrest easily lowers when you apply pressure in a downward motion
Rocking recliner provides soothing movement in the seated position, helping you relax
Power control on the arm effortlessly adjusts the recline, keeping you comfortable
Power control on the arm independently adjusts the headrests, recline and lumbar for a personalized sit
The power control allows you to independently adjust the recline and headrest.
A separate home button returns the headrest and footrest to their original positions with one touch.
A USB port is included on the power control for powering electronics.
Zero draw technology only uses power when the USB port is in use.
Lower the footrest by applying pressure to it in a downward motion. Lowering the footrest with the handle can damage the recliner.
Power allows you to smoothly recline to any position.
A single USB port is included on each power button control on styles with arms.
The power control allows you to independently adjust the recline, headrest, and lumbar support.
A separate home button returns the headrest, footrest, and lumbar support to their original positions with one touch.
